C5 STEALTH.STATION

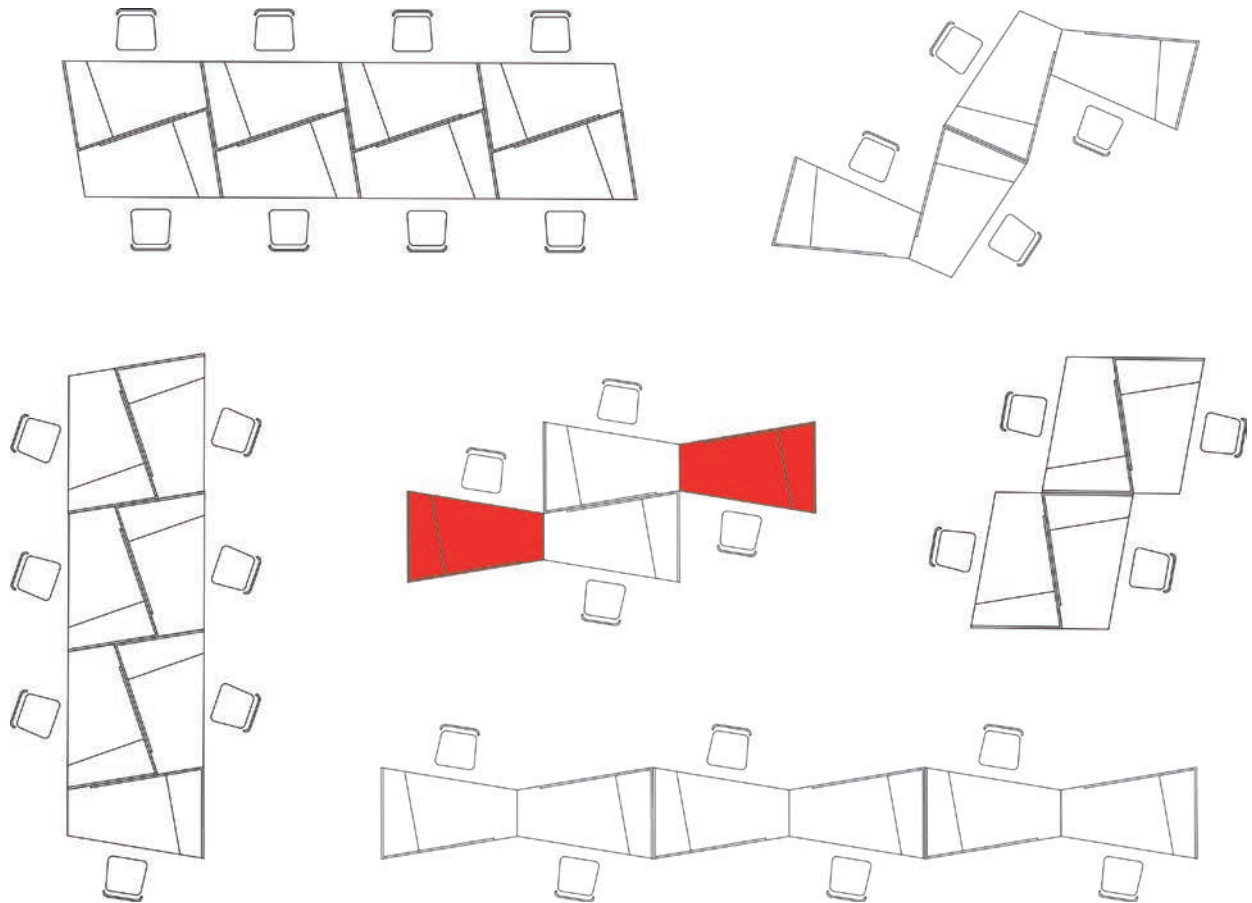

**CREATOR
CAMILLA SCHLYTER**

THE CRACKED STEALTH SHAPES SUPPORTS BETTER ACOUSTICS.

CLEARLY OUR MOST STARTLING WORK.STATION EVER

Information-Based society places new demands on the workplace. Our digital tools affect and change the manner of communication. A continuous development of technologies for collaboration allows work in multiple locations. The C5 Stealth work.station solves several pieces of the puzzle.

**ACTIVITY BASED WORK.STATIONS THAT CHANGES
THE DIRECTION OF THE ROOM BY IT'S SHAPE**

The Stealth Work.Stations positions people away from each other.
This contributes to better acoustics and territorial boundaries for employees.

SIT DOWN AND STAND UP

C5 Stealth work.station is electric height adjustable from 700-1200mm.

ACCESSORIES

Class A Soundabsorbing walls and top. The sound is trapped between the walls, top and table top.

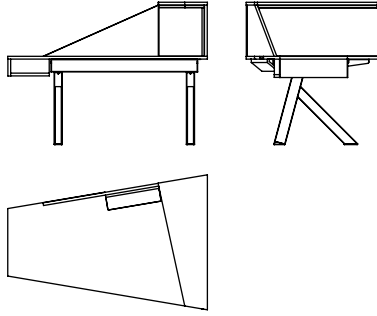

CREATOR

Designer Camilla Schlyter has designed a unique work place which makes it possible to decorate in endless ways. The solution is suitable for various types of work spanning from single points of concentration to large groups for project work and socially active or passive requirements.
