# Welcome to our sustainability report

At Ragnars, we see this not just as a report, but as a reflection of our long-term commitment to responsible design, marketing and production of office furniture.

As part of the Lammhults Design Group, Ragnars combines Småland's rich heritage in craftsmanship with a forward-looking vision for sustainable office furniture. Based in Forserum, Sweden, we have been crafting extraordinary furniture since the 1950s.

The heart of our brand is characterized by:

- Extraordinary Design
- Innovative functionality
- Flexibility and customization
- Forward-thinking sustainability

Our designs transform spaces, elevate minds, and spark positive emotions and ideas. Each one of our products is impeccably crafted with premium materials and features innovative details that simplify work life. We’re driven by our rebellious spirit and relentless attention to detail to create extraordinary office furniture that challenges the status quo.

This report marks a new chapter in how we share our journey. Openly, honestly, and with the ambition to shape a better future for work environments.

We do not see sustainability as a checklist, but as something that needs to be part of how we think, build and grow. For us, it is not a separate initiative, it’s a thread woven into our

ABOUT THIS REPORT

This sustainability report has been prepared with guidance from the VSME (Voluntary Sustainability Reporting for Small and Medium Enterprises) Basic and Comprehensive Modules. While the report does not follow every requirement to the letter, it is inspired by the structure and principles of these frameworks to ensure relevance and transparency. No sensitive information has been excluded, and the content reflects the full scope of Ragnars operations. The report covers the entire organization, which as of 2024 consists of app. 40 employees.
